Important Note: Part L (Flat-bottomed Wooden Screw Cap Covers) are optional. If installed, they should be placed over exposed screw hole wells, covered with a cloth to protect chair paint/finish during installation, and gently hammered into place with a rubber mallet.

Remarque importante: la partie L (couvercles à vis en bois à fond plat) est facultative. S'ils sont installés, ils doivent être placés sur les puits de trous de vis exposés, recouverts d'un chiffon pour protéger la peinture / finition de la chaise pendant l'installation, et martelés doucement en place avec un maillet en caoutchouc.

Nota importante: la parte L (tapas de madera con tapa de rosca de fondo plano) es opcional. Si están instalados, deben colocarse sobre los orificios de los tornillos expuestos, cubrirse con un paño para proteger la pintura / el acabado de la silla durante la instalación y martillarse suavemente en su lugar con un mazo de goma.

Protect Your Wood or Laminate Flooring

*This statement applies to any floor without carpet.

If not careful, all furniture including upholstery and case pieces can scratch, scuff and even gouge floors. The recommendation is to have felt, rubber pads or area rugs under furniture on flooring without carpet.

Moving your furniture

Pushing and dragging furniture over floors without carpet can lead to scratches and scuffs. Have someone help when moving the larger pieces of furniture by lifting, try using a dolly or moving pads.

Felt and rubber pads

Applying furniture pads to the feet of furniture helps cushion contact points. Furniture pads can be found at local hardware stores. Felt pads slide easily across the floor, making them ideal for dining chairs and other pieces that move with use. Rubber pads will help furniture stay in place and are perfect for larger pieces, like sofas and loveseats.

Area rugs and rug pads

Using an area rug under furniture is another way to protect your floor from scratches and scuff marks. A rug pad under the area rug will provide extra cushion and added protection.
