ASSEMBLY INSTRUCTIONS

When assembling the two seat lids, please pay attention to the placement direction of the seat lids: the inner side of the lids is straight, the outer side of the lids is curved.

Otherwise, there will be assembly gaps or even the lids may not be able to be assembled.

Care and Cleaning

The sofa requires no special but normal maintenance, so does the padding material. If your sofa is with fabric filler or down feather padding, you will need to shape its cushions carefully to make them restore to their original shapes, because long way transportation will make the cushions out of shape. In fact, the long journey which the sofa is subjected to before reaching your home could temporarily affect the sofa's initial beauty.

Dust often and use a vacuum cleaner to clean seams. To maintain the fabric appearance, gently clean soiled areas with soft cloth dampened with water. Wipe with a clean, damp surface (do not rub).

Spot Cleaning Fabric: Blot any spills immediately; do not rub. Blot away the excess liquid with a clean, dry, white cloth; turning the cloth frequently.

Do not use common household cleaners, solvents, or dry cleaning fluids on fabric furniture. These cleaners may cause damage and color fading.

Do not use or place sharp objects on upholstered furniture.

Do not place furniture in direct sunlight and keep furniture at least 60cm/2ft from heat sources to avoid fading.
