CARE AND CLEANING

*Upholstered furniture is packaged tightly to protect it during transit. This packaging can sometimes cause creases or misshaped cushions when the furniture comes out of the packaging. These issues will correct themselves over time as the fibers of the cushions are exposed to air. However, shaping the cushions with your hands can alleviate the creases and compressed fibers more quickly.

Before shaping

After shaping

- *Dust often and use a vacuum cleaner to remove debris from seams and crevasses.
- *Use a soft damp cloth to gently clean soiled areas and wipe clean. Do not rub.
- *Do not use household cleaners or solvents. Such cleaners may cause damage and/or discoloration.
- *Do regularly use dedicated leather care product onto the leather furniture to prevent built up of body oils.
