01

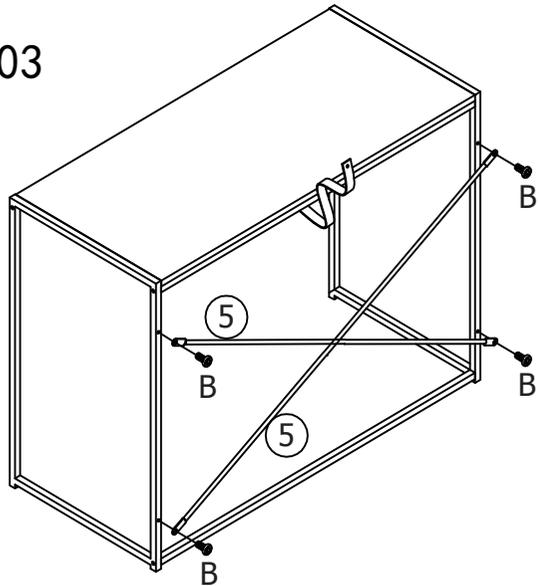

Fix 2 metal legs to top/bottom metal support tubes(2,3) with screw (A) by using hex wrench(H).

02

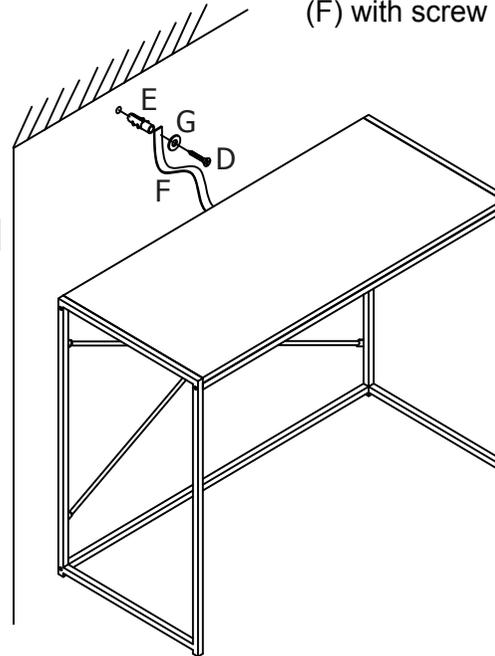

Fix assembled part "Step 01" to top panel with screw (C), fix nylon strap (F) with screw (C) and washer (G) as shown.

03

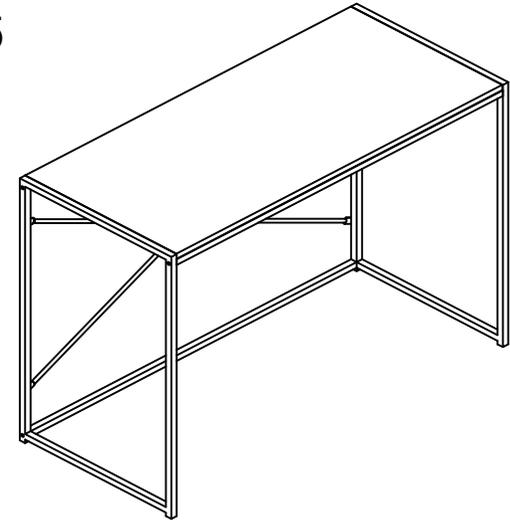

Lock the back support wire (5) on the left and right metal legs (1) with screw (B).

04

Wand

Make a hole in the right position on the wall, insert wall anchor (E) into the hole, and lock the washer (G) and nylon strip (F) on wall anchor (E) with a screw (D).

05

Finish assembly.
