USE AND CARE INSTRUCTIONS

⚠ WARNING -Children have died from furniture tip over. To reduce the risk of furniture tip over, adhere to the recommendations below.

- For use with televisions weighing 235lbs/ 106.6kgs or less. Use with heavier televisions may result in instability causing tip over resulting in death or serious injury.
- Plasma/LCD-flat panel TV screen of various screen size to a maximum TV screen size 75 inches
- All other support shelves should not be loaded more than 25 lbs/ 11.3 kgs
- All drawers should not be loaded more than 25 lbs/ 11.3 kgs
- Always place TV no more than two inches from the back edge of the console. Placing TV more than two inches from the back edge may increase the risk that the console will tip over.

DO NOT REMOVE THIS LABEL.

⚠ WARNING -Death or serious injury may occur when children climb on audio and/or video equipment furniture. A remote control or toys placed on the furnishing may encourage a child to climb on the furnishing and as a result thefurishing may tip over on to the child.

⚠ AWARNING - Relocating audio and/or video equipment to furniture not specifically designed to support audio and/or video equipment may result in death or serious injury due to the furnishing collapsing or overturing onto the child.
