# Using the Remote Control

## 1 Installing the battery

The battery is supplied with the remote control. The first thing to do with the remote control is to remove the plastic sheet insulated the battery. For replacement battery, use lithium-based CR2025 battery. Please follow the sequence below to replace the battery.

- Follow the guide below to take out the battery bracket.

- Insert the battery with the button side into the battery bracket, making sure the battery is firmly seated.

- Press the battery bracket into the remote control, making sure it snaps into position.

- Turn the remote over and aim it towards the fireplace/heater unit.
- Press the power button on the top and see if the light on the fireplace/heater turns on or off.
- If nothing appears to happen, check to make sure the battery is installed correctly, and try again.

## Battery Safety Warning

- Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.
- Even used batteries may cause severe injury or death.
- Call a local poison control center for treatment information.
- Compatible battery type: CR2025.
- Nominal battery voltage: 3 V.
- Non-rechargeable batteries are not to be recharged.
- Do not force discharge, recharge, disassemble, heat above 60°C or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.
- Ensure the batteries are installed correctly according to polarity (+ and -).
- Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.
- Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
- Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

### NOTE:

Battery disposal  
Please always dispose of batteries at a suitable recycling point.

## Using the Remote Control (continued)

### 2 Using the remote control

- The operation of the remote control buttons works the same as the buttons on the front panel of the fireplace/heater. Review the operation section for more information on the functionality of these buttons.

## Care and Maintenance

**WARNING:** Always disconnect from the power supply before cleaning the heater. First turn off the main power. Then remove the electrical plug from the wall outlet.

**WARNING:** Do not use this fireplace insert if any part of it has been under water. Immediately call a qualified service technician to inspect the firebox and replace any part of the electrical system which has been under water.

The blower motor and light motor are pre-lubricated for a durable using time and need no further lubrication or maintenance. To remove any accumulation of dust or debris, the soft brush attachment of a vacuum cleaner should occasionally be used to clean the outlet grille of the fan heater.

- Use a soft, clean cloth that will not scratch the surface when dusting.
- Use a clean, soft cloth dampened with warm water to clean the fireplace surface. DO NOT use household or abrasive cleaners, as these products may damage the surface.
- When cleaning the glass viewing screen use a non-abrasive damp cloth with liquid cleaner or soft soap if necessary; DO NOT use cleaning powders or any other substance with abrasives since these substances will scratch glass.
- Under no circumstances should this product be operated with a broken or chipped glass panel.
- Do not strike or slam the glass.
- In the event that your appliance is stained or otherwise damaged during use, we recommend that you call a professional to repair it.
- When not in use please unplug the cord from the outlet to prevent any damage or accidents.
