# ANTI-TIP DEVICE

## Installation Instructions:

This anti-tip device must be attached to a wall stud using the 2" screw enclosed.

1. Attach a bracket securely to the back top rail or back top edge of the furniture using the 5/8" screw provided, through the smaller hole in the bracket.
2. Locate the other bracket on the wall over a wall stud and 2 inches below the mounting bracket secured to the back of your unit. Attach to the wall stud using the 2" screw provided, through the smaller hole in the bracket.
3. Place the furniture into position so both mounting brackets are vertically in line.
4. Lace the threaded end of the restraint cable through the rectangular hole in each mounting bracket. Bring both ends together and rotate the thumb nut onto the threaded end until tight .
5. Confirm that the cable is securely laced and locked.
