Hardware :

1

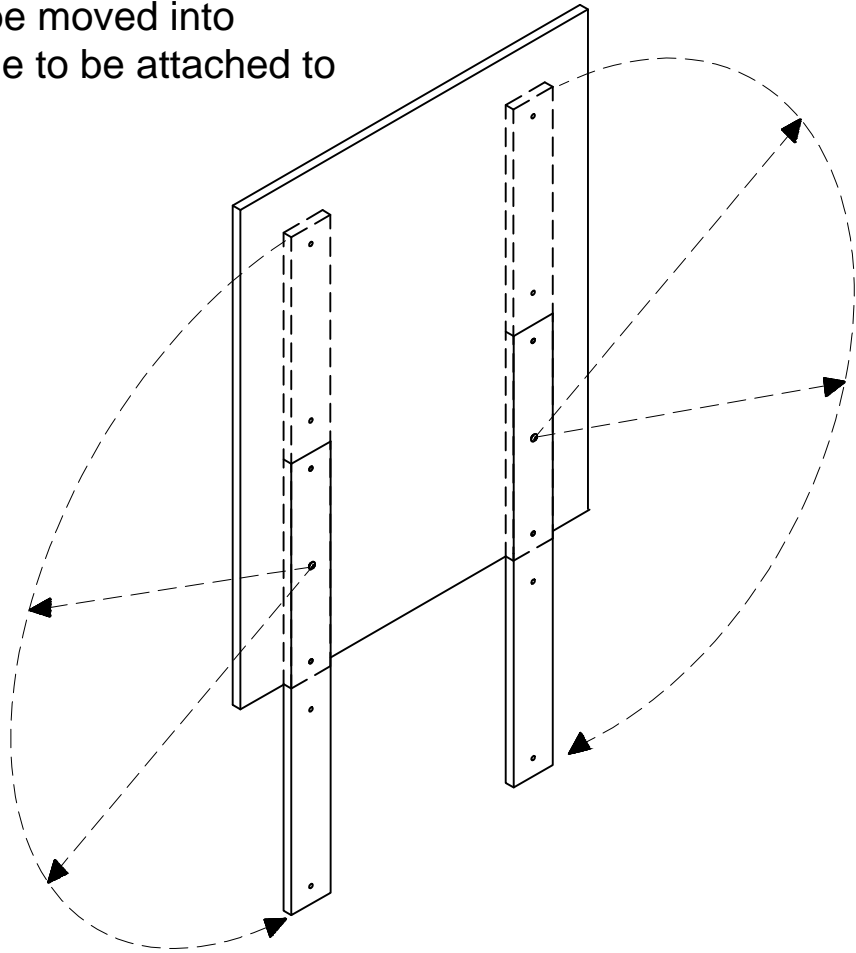

The mirror supports are already attached to the mirror.

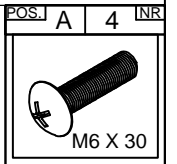

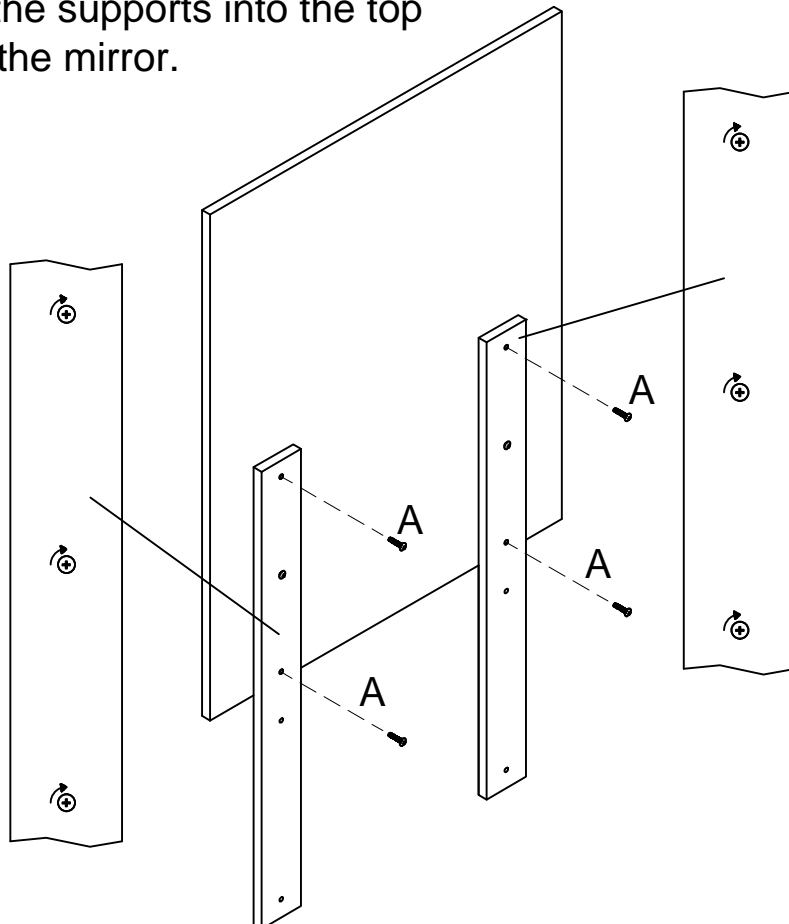

During the assembly process, use carton as a base to avoid scratches.

- 2** Loosen the screws so that the supports can be moved into extension mode to be attached to the dresser.

- 3** Insert the screws into the second hole to secure the supports into the top section of the mirror.

4

Carrefully place the mirror on top of the dresser and insert the screws into the dresser. Ensure that all screws are tight and mirror is secure.
