CARING FOR YOUR FURNITURE

• Protect your investment

- The beauty of furniture care is that it helps to protect your investment, as fine furniture is an important purchase
- Proper care will help maintain your furniture's finish and ensure that it looks great year after year

• Caring for furniture

- Caring furniture is easy. Following a few simple guidelines will help extend the life of your furniture
- Always dust with a cloth moistened with polish. Polish cushions the cloth, eliminating the scratching that occurs with dry dusting. Dust will scratch furniture if not removed quickly. Use a soft clean cloth that won't scratch the surface. Avoid coarse or scratchy materials or fabrics
- Avoid using soap and water on furniture. Water can penetrate the finish and raise the grain on wood that cause damage to furniture.

• The Enemies Of Furniture

- Many common problems in furniture care are caused by the elements. If you are aware of these trouble makers the resulting damage can easily be avoided
- Sunlight's ultraviolet rays can damage wood finishes. Arrange furniture out of direct sunlight use sun screening intense sunlight hours rotate furniture in place and room arrangement
- Liquid spills will damage furniture if not removed promptly. Use coasters under beverage glasses and saucers under cups and flowerpots. If a spill occurs. Immediately blow it gently with out rubbing the surface.
- Heat creates a chemical change in the furniture finish. Which can result in a white spot. Use protective mats under hot dishes, utensils or cooking appliances
- Cyclic changes in temperature can damage furniture. Placing furniture near to central heating radiator and air dust should be avoided because this causes extreme localized drying of the wood

• Tips For Better Dusting

- Be sure to use the same type of polish consistently. Your furniture will appear cloudy or streaky if oil based or wax based polishes are interchange
- Always use a fine furniture polish when dusting. Never dry dust as it could cause scratches on your furniture's surface. Remember to change dusting cloths frequently since a dirty cloth may scratch your furniture's surface.
- Spray your furniture surface evenly but not too generously. Wipe in a circular motion with a soft clean cloth.
- Then buff until completely dry for a beautiful shine and smudge free finish. For wood trim spray polish on the cloth first then dust.

CARING AND CLEANING INSTRUCTIONS FOR BED AND CHAIR UPHOLSTERY

- Vacuum the fabric upholstery on both beds and chairs regularly, especially along seams and edges, to remove dust and debris.
- To maintain the original look, gently clean soiled areas with a soft cloth dampened with clean water.
- Wipe with a clean, damp cloth. Do not rub, as this may damage the fibers.

Spot Cleaning Fabric:

- Blot spills immediately using a clean, dry white cloth.
- Do not rub the stain; instead, gently blot and turn the cloth frequently to absorb moisture.
- If needed, use a mild soap solution, and test it on a hidden area first.

Do not use household cleaners, harsh chemicals, solvents, or dry-cleaning fluids on the fabric surface.

Do not place or drag sharp or abrasive objects on upholstered beds or chairs.

Do not expose upholstered furniture to direct sunlight or place it near heat sources.

- Maintain a distance of at least 60 cm (2 feet) from radiators or heaters to prevent fading or fabric damage.
