***Caution. Please read all instructions carefully before starting the assembly process. These parts are cumbersome and heavy. Therefore, two people are recommended in order to prevent personal injury and ensure the parts are not damaged during the assembly.

STEP 1

Attach the legs to the seat frame.

Note: Do not tighten all screws & bolts until the seat is fully assembly.

Stand **bench** up on an even surface and check that it is balanced. If there is a slight wobble, apply downward pressure in the corner where a leg is uneven. Keeping pressure in that corner, tighten all bolts. If balanced, apply downward pressure evenly in the center and tighten all bolts.
